

CAPE ANN

AGE & DEMENTIA FRIENDLY COMMUNITY FORUMS

NOVEMBER 7-16

Dr. Caitlin Coyle from UMass Boston will facilitate open discussions with residents about how to make Cape Ann more age & dementia friendly. **JOIN US** to share your experiences and ideas!

Members from all aspects of the community are encouraged to attend, including government, human service agencies, health and beauty, finance and banking, media and information services, private business, and—possibly the most important group—caregivers and persons directly impacted by aging and dementia. Interested individuals are welcome to attend one or all of the Forums. Your input is critical.
